## FLORIDA'S POPULATION GROWS AT RATE OF 27%

Florida has been gaining population at the rate of 3,464 persons weekly since 1950 and has, as of July 1 of this year, a total population of 3,533,000. This 1954 total, a computation made by the Florida State Chamber of Commerce on the basis of various revised official studies, gives the State a 27.1 percent increase from the census count of 1950.

Florida's percent increase in population ranks the State first among the States East of the Rocky Mountains, with only two small Western States having a faster rate of growth. The national increase was 7.6 percent.

Sources of Florida's 762,000 new residents since 1950 are brought out in this week's business review of the State Chamber's research and industrial division. A natural gain of 185,900 (or 845 per week) was recorded. The balance of 576,100 new residents (2,619 per week) came from other States and foreign lands to make their homes in Florida.

The last official estimate of Florida's population was made as of July 1, 1953, totaling 3,353,000 at that time.

Military persons (about 100,000) assigned permanently to Florida bases, are included in the 1954 computation as well as in the 1950 census count of 2,717,205.

## FLORIDA'S '35 TAGS TO BE OF LUMINOUS TYPE

Florida motorists will get a new type of license tag for 1955. The State Cabinet has authorized expenditure of \$32,000 to manufacture 500,000 license tags with numerals that glow in the dark.

Commissioner Nathan Mayo said that these new tags with luminous numbers will aid highway safety and improve law enforcement.

The tags will carry the slogan "The Sunshine State" which will also be luminous. Tags are being manufactured at the State Prison in Raiford. As the manufacture of the 1955 tags was already in progress when the contract was made for the luminous process, about 600,000 new tags will not have this feature, State Motor Vehicle Commissioner E.
